

Critical Solutions For Space

SPACE-QUALIFIED SINCE THE GEMINI PROGRAM

Reservoirs/Accumulators

COOLANT RESERVOIR FOR SATELLITES & VEHICLES

REUSABLE PROPELLANT TANKS/RESERVOIRS/ACCUMULATORS

THRUST VECTOR CONTROL (TVC) HYDRAULICS

O3B Program

The O3B, or "Other Three Billion", program is targeted at providing internet services to areas of the world where it is not currently available.

SMB built a custom accumulator for the O3B program's satellites.

Coolant Accumulator

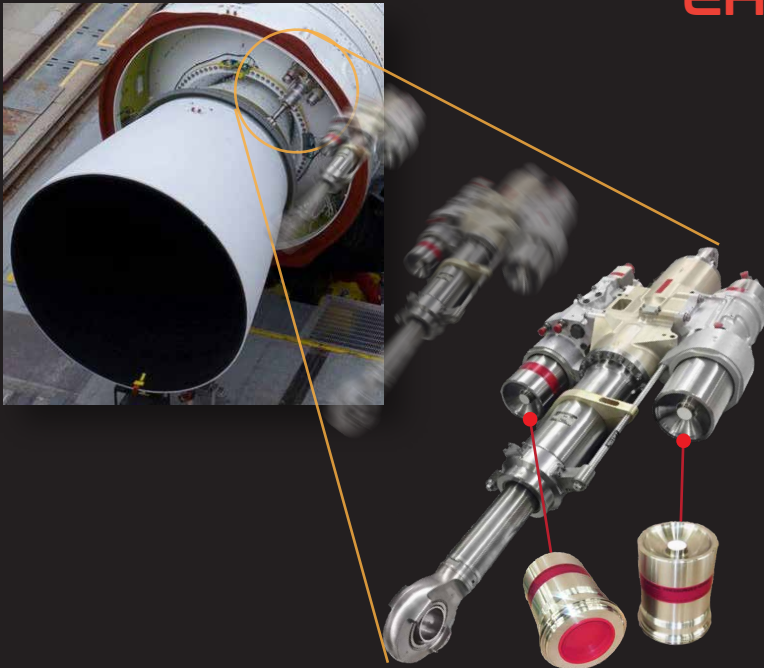

Designed, tested, and qualified to ensure consistent, reliable performance for the fleet.

- Maintains stable system pressure
- Continuous fluid level monitoring
- Compensates for thermally induced volumetric changes
- Designed & qualified to exceed the long operational life targets

Thrust Vector Control (TVC) EHA Reservoirs

- Instantaneous response
- Unaffected by stage separation shocks
- Maintenance-Free
- Dependable under extreme conditions

We provide engineered solutions for all of your mission-critical fluid handling, thermal management and actuation needs.
