

Maintenance-Free Accumulators & Reservoirs

SPACE-QUALIFIED SINCE THE GEMINI PROGRAM

Mission Critical Dependability

IMPERVIOUS TO TEMPERATURE EXTREMES

LONG LIFE

ZERO LEAKAGE

NO ELASTOMERIC SEALS

Accumulators

Reservoirs

Applications

Welded metal bellows accumulators and reservoirs are suitable for use in hydraulic, fuel and coolant systems

Advantages

Superior Dependability

- All welded metal construction
- No elastomeric seals to wear or degrade over time

Maintenance Free

- Designed for the life of the platform/vehicle
- Eliminates the need to recharge
- Eliminates auxiliary support equipment

Improved Performance

- Impervious to high and low temperature extremes
- Fast response
- No internal friction
- Corrosion resistant

Precision Factory Pre-charge

- Optimizes performance
- Minimizes variation

Pressure Vessels

- High strength alloys
- Weight optimized materials
- Corrosion resistant alloys

Optimized Designs

- Custom engineered solutions for your specific application

Hermetically Sealed

- Helium mass spectrometer levels
- Zero Leakage

We provide engineered solutions for all of your mission-critical fluid handling, thermal management and actuation needs.
